

UBIQUITY

*The Journal of Literature,
Literacy, and the Arts*

Submitting Revised Manuscripts and Creative Works into OJS.

1. Log into our OJS website where you initially submitted your manuscript for review.
2. After logging in, you should be on the **User Home** page. Click the link towards the center of the page that says **Author** under the **My Journals** section.
3. Go to the author page and click the link corresponding with your article's title:
<http://ed-ubiquity.gsu.edu/ojs/index.php/ubiquity/author>
4. On the article page (it should say **Summary** at the top of the page), click the link that says **Review**.
5. Towards the bottom of the page under the **Editor Decision** section, it should say **Upload Author Version**. Click the **Browse** button and find your revised document.
6. Click the **Upload** button.
7. Let the editor know that you have a new manuscript added into the system.

You should be set after that.

Uploading a Supplemental File

If you need to add a supplemental file (like a video recording, photograph, audio track, etc.), then you can add the file on the **Summary** page (see step 2). There's a link that says **Add a Supplementary File** on that page. Please remember that this is not for revisions to a main article.
